☐ Guying will be required for angle, corner or tap pole construction ☒ Guying is not required

The diagram illustrates a utility pole with a central vertical pole and multiple cross-arms extending horizontally. The pole is labeled "Pole Side\* (Check One)" at the top. The cross-arms are labeled "Lowest Neutral ☐ or Secondary ☒ (Check One)" at the top. The pole has a "Top of Conduit Riser Ht. 26' (If Below Neutral or Secondary)" indicated by an arrow. The pole is divided into sections by horizontal lines, each representing a different height level. The sections are labeled with "Mid-Span Ht." and "Attach. Ht." values. The "Attach. Ht." values are measured from the ground to the point of attachment. The "Mid-Span Ht." values are measured from the ground to the mid-span of the cross-arm. The diagram shows the following data for each section:

Section	Mid-Span Ht.	Attach. Ht.	Front/Back
Top	28'	28'	Front <input type="checkbox"/> /Back <input checked="" type="checkbox"/>
Second	25' 6"	27'	Front <input type="checkbox"/> /Back <input checked="" type="checkbox"/>
